## **CODE OF GOOD CONDUCT**

### **INTRODUCTION**

To make the Training Grounds an ordered and safe place to work, Trainers and their staff must follow this Code of Good Conduct at all times failing which the Trainer's JCE Permit to train may be withdrawn, pursuant to Clause 14 of the Rules. The Code has been drawn up by Jockey Club Estates in consultation with the Chairman of the Heath Committee and Chairman of Newmarket Trainers' Federation in Newmarket and the Chairman of the Mandown Gallops Committee.

### **1 STAFF**

- 1.1 All staff, and especially head lads and grooms, should be aware of and fully understand the Rules for use of the Training Grounds and this Code of Good Conduct.
- 1.2 It is mandatory under the Rules of Racing for all riders to wear skull caps and for all riders, other than those on hacks, to wear back protectors.
- 1.3 No rider should smoke while on the Training Grounds.
- 1.4 Whilst mobile phones are an important tool in an emergency, no rider should use a mobile phone unless it is in relation to their job at the time.
- 1.5 Riders should remain quiet unless circumstances dictate otherwise.

### **2 STRING MANAGEMENT**

- 2.1 Strings should be of a manageable size with an appropriate number of experienced staff in supervisory roles.
- 2.2 No string should pass another string from behind while on the horsewalks.
- 2.3 One string should not cut in front of another string at any time and particularly one about to set off on a gallop or canter.
- 2.4 Lead riders should communicate the string's intentions clearly to other strings.
- 2.5 Strings should not set off too closely behind the preceding string. The following string should judge the speed of a preceding string to avoid catching it up.
- 2.6 If working horses at a slow canter (yearlings or horses returning to exercise) the string behind must be informed.
- 2.7 Use of the Training Grounds by lone horses should be avoided. If unavoidable, the Trainer must be aware of the route the rider is to take and raise the alarm if they do not return to the yard at the expected time.

### **3 ROAD CROSSINGS**

- 3.1 A risk assessment for each of the road crossings used must be carried out by each Trainer.
- 3.2 An unmounted member of the Trainer's Staff should assist strings crossing public roads, or be in advance of the string on a sensible horse or hack. Anyone stopping traffic should wear a reflective vest, even in full daylight.

- 3.3 No more than 20 horses should cross the road at one time without breaking to allow vehicles to pass. Smaller strings should avoid tacking onto the end of larger strings.
- 3.4 Riders should not assume that vehicles have seen them and will stop. Riders should wait until an approaching vehicle has come to a stop before walking their horse onto the crossing.
- 3.5 Where triggers operate flashing warning lights or traffic lights, these should be armed prior to crossing and disarmed after crossing.
- 3.6 As many riders as possible should thank waiting drivers, but as a minimum the first and last riders in the string.
- 3.7 Any accident or near accident must be reported to the Company.

#### **4 STALLS**

- 4.1 If using any of the stalls provided, leave them unset and with gates open.
- 4.2 On stalls with corrals, shut the corral gate after use.
- 4.3 Report any breakages of the stalls to the relevant Gallops Manager.

#### **5 FENCES, HURDLES AND OTHER EQUIPMENT**

- 5.1 If you damage fences, hurdles or any other equipment on the Training Grounds, please report it to a member of JCE staff so that it can be repaired as soon as possible.

**PLEASE USE COMMONSENSE AND BE COURTEOUS AT ALL TIMES  
THANK YOU FOR YOUR COOPERATION**

## ACCIDENT PROCEDURE ON NEWMARKET TRAINING GROUNDS

### 1. GENERAL

- 1.1 Working with racehorses is potentially hazardous.
- 1.2 Racehorses are unpredictable and can be dangerous.
- 1.3 In offering training facilities to racehorses the Company accepts that you are exposed to this risk.
- 1.4 To limit the possibility of harm to you or to anyone else who visits or has access to the Training Grounds, the Board have issued the Rules which include the Code of Good Conduct which are acknowledged and agreed by all Trainers who use the Training Grounds and the safety recommendations which have to be followed.
- 1.5 These Rules, which contain the recommendations, are also displayed on the information boards in the mess rooms at Southfield Farm, Bury Side Depot and the Links.

### 2. WHAT TO DO IF SOMEONE HAS AN ACCIDENT (see section 5 for horse injuries)

- 2.1 If an accident occurs on the Training Grounds and there is immediate concern over injury to a rider or anyone else, it is essential firstly to follow the two-step procedure outlined below:

#### STEP 1

**Call 999** immediately to alert the emergency services, giving clear, simple information on:

- The nature of the accident (crushed, kicked, fallen at speed/from height etc) and the assessment of its severity (loss of consciousness, possible head injury, broken limbs, etc). Give as much detail as possible as this will affect response time.
- The exact location of the injured person, preferably by reference to the nearest road and gate access and appropriate directions or reference to the Training Grounds Safety Plan available online. See post codes below.
- Personal details of the casualty (gender, age, and any other condition such as diabetes/pregnant etc)

- 2.8 Close the area to training near the accident and nearest point of access to the injured party.
- 2.9 Post a person to the first access point to assist the ambulance service.

### 3. ACCIDENT RECORD

- 3.1 All employers legally must record all the information possible about accidents which occur, involving members of staff on the training grounds.
- 3.2 All accidents should be reported immediately to the relevant Gallops Manager and the accident form should be completed with as much information as possible, with supporting photographs or drawings if necessary and a witness statement if suitable. This is so the accident can be investigated and any corrective actions can be made.
- 3.3 Accidents involving staff working for a trainer on JCE training grounds should be recorded by their employer, with a copy forwarded to the relevant Gallops Manager as soon as possible. All accidents have causes and Jockey Club Estates want to eliminate the causes and eliminate future accidents.
- 3.4 Trainers do not need to report an accident to JCE which occur in their stables.
- 3.5 All accident data (anonymous) will be reviewed at the regular Health & Safety Committee meetings and Gallops Managers meetings.

### 4. ADDITIONAL TRAINERS INFORMATION

- 4.1 It is the responsibility of the trainer to report any RIDDOR reportable incident or injury within the appropriate timescale.
- 4.2 A RIDDOR can be reported online [www.hse.gov.uk/riddor](http://www.hse.gov.uk/riddor) and complete the appropriate online form. Fatal/specified and major injuries only can be reported by telephone to the incident contact centre on 0845 3009923 (Mon to Fri 8.30am – 5pm)

**5. IF AN ACCIDENT OCCURS ON THE TRAINING GROUNDS WHICH INVOLVES THE INJURY OR DEATH OF A HORSE THE FOLLOWING APPLIES:**

- 5.1 The Trainer's obligation is to respond and make arrangements in the case of an accident, and he/she must inform the relevant Gallops Manager or the relevant Gallops Manager.

## INFECTIOUS DISEASE PROTOCOL

### 1 GENERAL

1.1 Infectious Disease is a serious threat to the HRI in Newmarket. With more horses travelling overseas the likelihood of infection has increased. In order to minimise this threat, trainers are reminded to follow the NTF Code of Practice for Infectious Diseases of Racehorses in Training at all times. In addition to this Code of Practice trainers are also required to follow this simple protocol to protect other users of the Training Grounds.

### 2 SUSPECTED INFECTIOUS DISEASE

2.1 Trainers are to inform JCE as soon as it is **suspected** that any horse under his/her care is infected with diseases covered by the Horseracing Betting Levy Board Codes of Practice on Equine Diseases (such as Strangles or Neurological Herpesvirus).

2.2 JCE can then (in the strictest confidence) assist the trainer and veterinary practice involved with the management of the case, to reduce the risk of the suspected disease spreading.

2.3 The trainer must also observe any statutory requirements and immediately inform the BHA. Until directed otherwise by the BHA, the trainer must not remove from the premises, or allow to be removed, any horse under his/her care or control.

### 3 CONFIRMED DIAGNOSIS OF INFECTIOUS DISEASE

3.1 Once the disease has been diagnosed, the following steps should be taken:

- Trainers should abide by the NTF Code of Practice for Infectious Diseases of Racehorses in Training;
